

Welcome to St. Mary School!

Thank you for taking the time to learn more about us. We are first and foremost a Catholic school rooted in fostering a strong Catholic faith and academic excellence.

Since 1911, with parish support, St. Mary's School has been providing an excellent Catholic education not only to the children of Johnson City but children from all over the surrounding counties. All students, regardless of race, religion or economic situation, are welcome to become part of our school family. Upon entering St. Mary's School, one experiences a Christ-centered environment. Our campus sits right alongside St. Mary's Catholic Church. It is truly a blessing to have our Parish and Parish community so close to help foster our students' faith formation.

St. Mary's School offers a curriculum that fosters the growth of the whole-child: academically, physically, emotionally, and spiritually. We are blessed to offer classroom environments that allow students to be seen, heard, and appreciated. Our students and their families become a part of our school family. We feel truly invested in each child's growth and development, both academically and spiritually.

As we continue growing our school family, our focus is diligently set on providing the very best overall classroom environment possible. Our teaching staff are certified professional educators that continuously strive to seek the full potential of each individual student. We follow the current state standards as well as educational standards set forth by the Diocese of Knoxville. In addition to a strong educational foundation, St. Mary's School offers opportunities for student enrichment through clubs, sports, and an after-school Educational Enhancement Program. A preschool is available to our youngest students. The After-Care Program provides childcare for working parents after school hours.

Our curriculum is rigorous and sets a solid foundation for our students' future success. We take pride in supporting academic growth with solid curriculum standards that have withstood the test of time while also enabling new ways of learning to safely make its way into our classroom. You will see traditional ways of learning combined with innovative techniques to allow each student to flourish. This combination sets parents' minds at ease, knowing that our curriculum is soundly based on years of academic success.

We are proud of our school and family community, but truly are humbled in knowing that our true gift is having Jesus Christ at the center of our school life. We offer this gift to all that enter our doors. There is a seat waiting for you, come join us!

Sincerely,

Mrs. Frye

St. Mary's School Principal
