

Welcome to 8th Grade

Already, our students and parents are leading our beautiful school.

The leadership at the 8th-grade graduation, from making speeches to cleaning up the after-ceremony reception, was just phenomenal.

Thanks to the parent donations for food, plus parents present to organize!

Kim Kenneson:
8th Grade Homeroom Teacher
kim.kenneson@stmarysjc.org

Summer Reading

Our summer reading book is *Refugee* by Alan Gratz. All students were provided hardback copies of the book on step-up day.

Math IXL

Students are required to complete IXL work over the summer in math. 30 minutes a week, 50 problems covering 3 skills with a 90 percent proficiency. This counts as first grade in math class.

Attendance

We need to improve over this year as lack of attendance was certainly an obstacle for achievement. Thanks for reviewing our attendance policies for St. Mary's School.

Summer Photos

My goodness, we are traveling and doing so much over the summer.

Would love for your student to share photos – from trips to Europe, Gatlinburg, and camps and even working as a plumber!

We can text and share photos in August.
